June is the favored time when a woman takes her happiness in her hands and embarks on the sea of Matrimony.

Matrimony still remains "The Great Adventure." Perhaps the element of Chance makes it popular.

fare last night, the sub-season's liveliest condiment. The veteran black face comedians McIntyre and Heath returned to Breadway after three years on tour. They could not be expected to prevent it, but in their dark absence various other comedians broke the release date on some of the most cunning of the jokes, whereby "Red Pepper." in spots was bereaved of some of its joit and turned into something like cold potatoes. Several of the cutest quips escaped from custody two seasons ago.

But James McIntyre and Thomas Heath are real comedians, accomplished in the genre of the Southern states, at the head and front of the art. And the head and front of the sex inventive artists, there is enough flavor of the spivy isles in "Red Pepper" the widest sort of appeal and establish it as a summer show which all New York will see and laugh at.

McIntyre and Heath have been appearing together in black face since 1874. They have made a lifelong study of the megro and there is hardly a feather than the Columbia.
